RecoTrace User Guide

For recyclers and converters

Good to know

- RecoTrace works on all browsers, except Safari. We advice chromium-based browsers (Chrome, Edge,...).
- RecoTrace complies with the Circular Plastic Alliance (CPA) requirements for data collection.
- For the definitions of recycling, converting and waste, please refer to the CPA Methodology: https://ec.europa.eu/growth/industry/policy/circular-plastics-alliance_en
- You will encounter the word 'Europe' in some of the questions. Under the definitions of CPA, Europe is EU + UK.
- Building a secure, robust, well performant and user-friendly system is a continuous process. Therefore, the layout and contents of the forms presented in this guide might be a subject to change.

Managing your profile – waste origin, used in, sorting output

There are 3 lists:

- Manage 'waste origin': for sorters and recyclers
 - Can be pre or post consumer
- Manage 'used in': for converters
- Manage 'soring output': for sorters
 - Can be pre or post consumer

It's important to define these before adding submissions to RecoTrace.

The waste or end product you define here will populate your dropdown values when submitting

When you no longer recycle/sort/produce you can archive the chosen waste/product. It will not be visible in your dropdown afterwards.

You can add waste/products here, you will be taken to a drop down list where you can choose what to add. In the drop down you can check the box on the waste/product you handle within your operations. For waste you have to choose if the stream is either pre-consumer or post-consumer. Submit per chosen value, you will be brought back to the overview where you can add more.

RecoTrace **Benutzerhandbuch**

Für Recycler und Konverter

Gut zu wissen

- RecoTrace funktioniert in allen Browsern. Wir empfehlen jedoch chrombasierte Browser (Chrome, Edge,...).
- RecoTrace erfüllt die Anforderungen der Circular Plastic Alliance (CPA) für die Datenerhebung.
- Für die Definitionen von Recycling, Umwandlung und Abfall siehe bitte die CPA-Methodik: https://ec.europa.eu/growth/industry/policy/circular-plastics-alliance_en
- In einigen Fragen wirst du auf das Wort 'Europa' stoßen.
Nach den Definitionen von CPA ist Europa EU + Großbritannien.
- Der Aufbau eines sicheren, robusten, leistungsstarken und benutzerfreundlichen Systems ist ein kontinuierlicher Prozess.
Daher könnten sich das Layout und der Inhalt der in diesem Leitfaden präsentierten Formulare ändern.

Hier können Sie neue Nutzer hinzufügen, die korrekt in Ihr Unternehmen erstellt werden.

Es ist möglich, den Zugang verschiedener Nutzer innerhalb Ihres Unternehmens zu bestimmten Anlagen zu beschränken. Dazu wählen Sie 'Anlagen anhängen/entkoppeln' aus. Standardmäßig erhält jeder neue Nutzer Zugriff auf alle Anlagen.

Verwaltung Ihres Profils – Abfallherkunft, Verwendung im Einsatz, Sortierung des Outputs

Es gibt 3 Listen:

- Verwalten Sie die 'Abfallherkunft': für Sortierer und Recycler
 - Kann Pre- oder Post-Consumer sein
- Verwalten Sie 'gebraucht in': für Konverter
- Verwalten Sie den 'Sorting-Output': für Sortierer
 - Kann Pre- oder Post-Consumer sein

Es ist wichtig, diese zu definieren, bevor man Einsendungen zu RecoTrace einfügt.

Der Abfall oder das Endprodukt, das du hier definierst, füllt deine Dropdown-Werte beim Einreichen aus

Guida utente di RecoTrace

Per riciclatori e convertitori

Buono a sapersi

- RecoTrace funziona su tutti i browser. Tuttavia, consigliamo browser basati su Chrome (Chrome, Edge,...).
- RecoTrace è conforme ai requisiti della Circular Plastic Alliance (CPA) per la raccolta dati.
- Per le definizioni di riciclo, conversione e rifiuti, si prega di consultare la Metodologia CPA:
https://ec.europa.eu/growth/industry/policy/circular-plastics-alliance_en
- In alcune domande incontrerai la parola 'Europa'. Secondo le definizioni di CPA, Europa è UE + Regno Unito.
- Costruire un sistema sicuro, robusto, performante e facile da usare è un processo continuo. Pertanto, la disposizione e il contenuto dei moduli presentati in questa guida potrebbero essere oggetto di variazioni.

Qui puoi aggiungere nuovi utenti, verranno creati correttamente nella tua azienda.

È possibile limitare l'accesso di diversi utenti all'interno della tua azienda a determinati impianti. Per farlo, seleziona 'Attacca/Scollega impianto/Impianto/Impianto'. Per impostazione predefinita, ogni nuovo utente ha accesso a tutte le piante.

Gestione del tuo profilo – origine dei rifiuti, utilizzo in, ordinamento dell'output

Ci sono 3 liste:

- Gestire l'"origine dei rifiuti": per selezionatori e riciclatori
 - Può essere pre o post consumo
- Gestisci 'used in': per convertitori
- Gestire la 'sortia soring': per i selezionatori
 - Può essere pre o post consumo

È importante definirli prima di aggiungere le submission a RecoTrace.

I rifiuti o prodotti finali che definisci qui popoleranno i valori dei menu a tendina al momento della presentazione

Przewodnik użytkownika RecoTrace

Dla recyklerów i konwerterów

Dobrze wiedzieć

- RecoTrace działa we wszystkich przeglądarkach. Jednak zalecamy przeglądarki oparte na chromium (Chrome, Edge,...).
- RecoTrace spełnia wymogi Circular Plastic Alliance (CPA) dotyczące zbierania danych.
- Definicje recyklingu, konwersji i odpadów można znaleźć w metodologii CPA:
https://ec.europa.eu/growth/industry/policy/circular-plastics-alliance_en
- W niektórych pytaniach spotkasz słowo "Europa".
W definicjach CPA Europa to EU + UK.
- Budowanie bezpiecznego, solidnego, wydajnego i przyjaznego użytkownikowi systemu to proces ciągły.
Dlatego układ i zawartość formularzy przedstawionych w tym przewodniku mogą ulegać zmianie.

Gdy przestaniesz recykling/sortować/produkować, możesz archiwizować wybrane odpady/produkt. Nie będzie to widoczne w rozwijanym menu po wszystkim.

Możesz tu dodawać odpady/produkty, zostaniesz przekierowany do listy rozwijanej, gdzie możesz wybrać, co dodać. W rozwijanym menu możesz zaznaczyć pole dotyczące odpadów/produktu, którym się zajmujesz w ramach swoich operacji. W przypadku odpadów musisz wybrać, czy strumień jest przedkonsumencki czy pokonsumowalny. Zgłoś każdą wybraną wartość, zostaniesz przeniesiony do przeglądu, gdzie możesz dodać więcej.

Ghidul utilizatorului RecoTrace

Pentru reciclatoare și convertoare

Bine de știut

- RecoTrace funcționează pe toate browserele. Totuși, recomandăm browserele bazate pe Chrome (Chrome, Edge,...).
- RecoTrace respectă cerințele Circular Plastic Alliance (CPA) pentru colectarea datelor.
- Pentru definițiile reciclării, conversiei și deșeurilor, vă rugăm să consultați Metodologia CPA:
https://ec.europa.eu/growth/industry/policy/circular-plastics-alliance_en
- Vei întâlni cuvântul "Europa" în unele dintre întrebări.
Conform definițiilor CPA, Europa este UE + Marea Britanie.
- Construirea unui sistem sigur, robust, performant și prietenos cu utilizatorul este un proces continuu.
Prin urmare, structura și conținutul formularelor prezentate în acest ghid pot fi subiecte de schimbare.

Trimiterea datelor despre sortare - intrare

! Trimiterea datelor se face pe stație, pe țară de origine și pe fiecare tip de deșeu. Vă rugăm să rețineți că trebuie trimise și datele de ieșire.

Acest meniu derulant va afișa originea (sau deșeurile) selectate anterior pentru această fabrică.

Dacă acest meniu derulant este gol sau dorești să adaugi o nouă origine de deșuri în meniul derulant, intră în profilul tău și alege "Gestionează 'origine deșeurilor'"

- Dacă raportezi date lunare, selectează luna pentru care raportezi.
- Dacă raportezi pentru o perioadă mai lungă dintr-o singură dată, data ar trebui să corespundă sfârșitului perioadei de raportare.

De exemplu, dacă raportezi în iulie pentru primele 6 luni ale anului, iulie trebuie selectată și greutatea totală pentru toate cele 6 luni raportate.

Guía de usuario de RecoTrace

Para recicladores y convertidores

Bueno saberlo

- RecoTrace funciona en todos los navegadores. Sin embargo, recomendamos navegadores basados en Chrome (Chrome, Edge,...).
- RecoTrace cumple con los requisitos de la Circular Plastic Alliance (CPA) para la recogida de datos.
- Para las definiciones de reciclaje, conversión y residuos, consulte la Metodología CPA: https://ec.europa.eu/growth/industry/policy/circular-plastics-alliance_en
- En algunas de las preguntas te encontrarás con la palabra 'Europa'. Según las definiciones de CPA, Europa es UE + Reino Unido.
- Construir un sistema seguro, robusto, eficiente y fácil de usar es un proceso continuo. Por lo tanto, el diseño y el contenido de los formularios presentados en esta guía podrían estar sujetos a cambios.

Guide utilisateur de RecoTrace

Pour les recycleurs et les convertisseurs

Bon à savoir

- RecoTrace fonctionne sur tous les navigateurs. Cependant, nous recommandons les navigateurs basés sur Chrome (Chrome, Edge,...).
- RecoTrace est conforme aux exigences de la Circular Plastic Alliance (CPA) pour la collecte de données.
- Pour les définitions du recyclage, de la conversion et des déchets, veuillez consulter la méthodologie CPA :
https://ec.europa.eu/growth/industry/policy/circular-plastics-alliance_en
- Vous rencontrerez le mot « Europe » dans certaines questions. Selon les définitions de CPA, l'Europe est UE + Royaume-Uni.
- La construction d'un système sécurisé, robuste, performant et convivial est un processus continu. Par conséquent, la mise en page et le contenu des formulaires présentés dans ce guide pourraient être sujets à changements.

Ici, vous pouvez ajouter de nouveaux utilisateurs, ils seront créés correctement dans votre entreprise.

Il est possible de limiter l'accès de différents utilisateurs au sein de votre entreprise à certaines usines. Pour cela, sélectionnez « Attacher/Délier l'usine ». Par défaut, tout nouvel utilisateur a accès à toutes les plantes.

Gestion de votre profil – origine des déchets, utilisation dans, tri des résultats

Il y a 3 listes :

- Gérer « l'origine des déchets » : pour les trieurs et les recycleurs
 - Peut être avant ou après consommation
- Gérer « utilisé dans » : pour les convertisseurs
- Gérer la « sortie soring » : pour les trieurs
 - Peut être avant ou après consommation

Il est important de définir ces éléments avant d'ajouter des soumissions à RecoTrace.

Le gaspillage ou le produit final que vous définissez ici remplira vos valeurs déroulantes lors de la soumission

Soumission de données sur l'activité de conversion - sortie

! La soumission des données se fait par usine et par pays d'origine.

The screenshot shows the RecoTrace web application interface. At the top, there is a logo for RecoTrace™ with the tagline 'RECORDING & TRACING POLYMER CIRCULARITY'. To the right of the logo are two dropdown menus: 'English' and 'testconverter'. Below the header, there is a breadcrumb trail: 'Homepage > Converting Activity > Submit output data'. The main form area contains several input fields and a 'Save' button. The fields are labeled as follows: 'PLANT NAME' (dropdown), 'POLYMER' (dropdown), 'DATE' (dropdown), 'USED IN' (dropdown), 'TOTAL (KG)' (text input with a value of 365473), 'PRODUCTS FOR THE FRENCH MARKET (%)' (text input with a value of 0), 'PRODUCTS EXPORTED OUTSIDE EU/ UK/NORWAY/ SWITZERLAND (%)' (text input with a value of 0), 'PRODUCTS EXPORTED TO NORWAY AND SWITZERLAND (%)' (text input with a value of 0), and 'EXTRA INFORMATION' (text input). There are also '+' and '-' buttons next to the percentage inputs. A 'Save' button is located at the bottom right of the form. The background of the page features a large blue circular arrow graphic.

- Si vous déclarez des données mensuelles, sélectionnez le mois pour lequel vous déclarez.
- Si vous déclarez une période plus longue d'un coup, la date devrait correspondre à la fin de la période de déclaration.

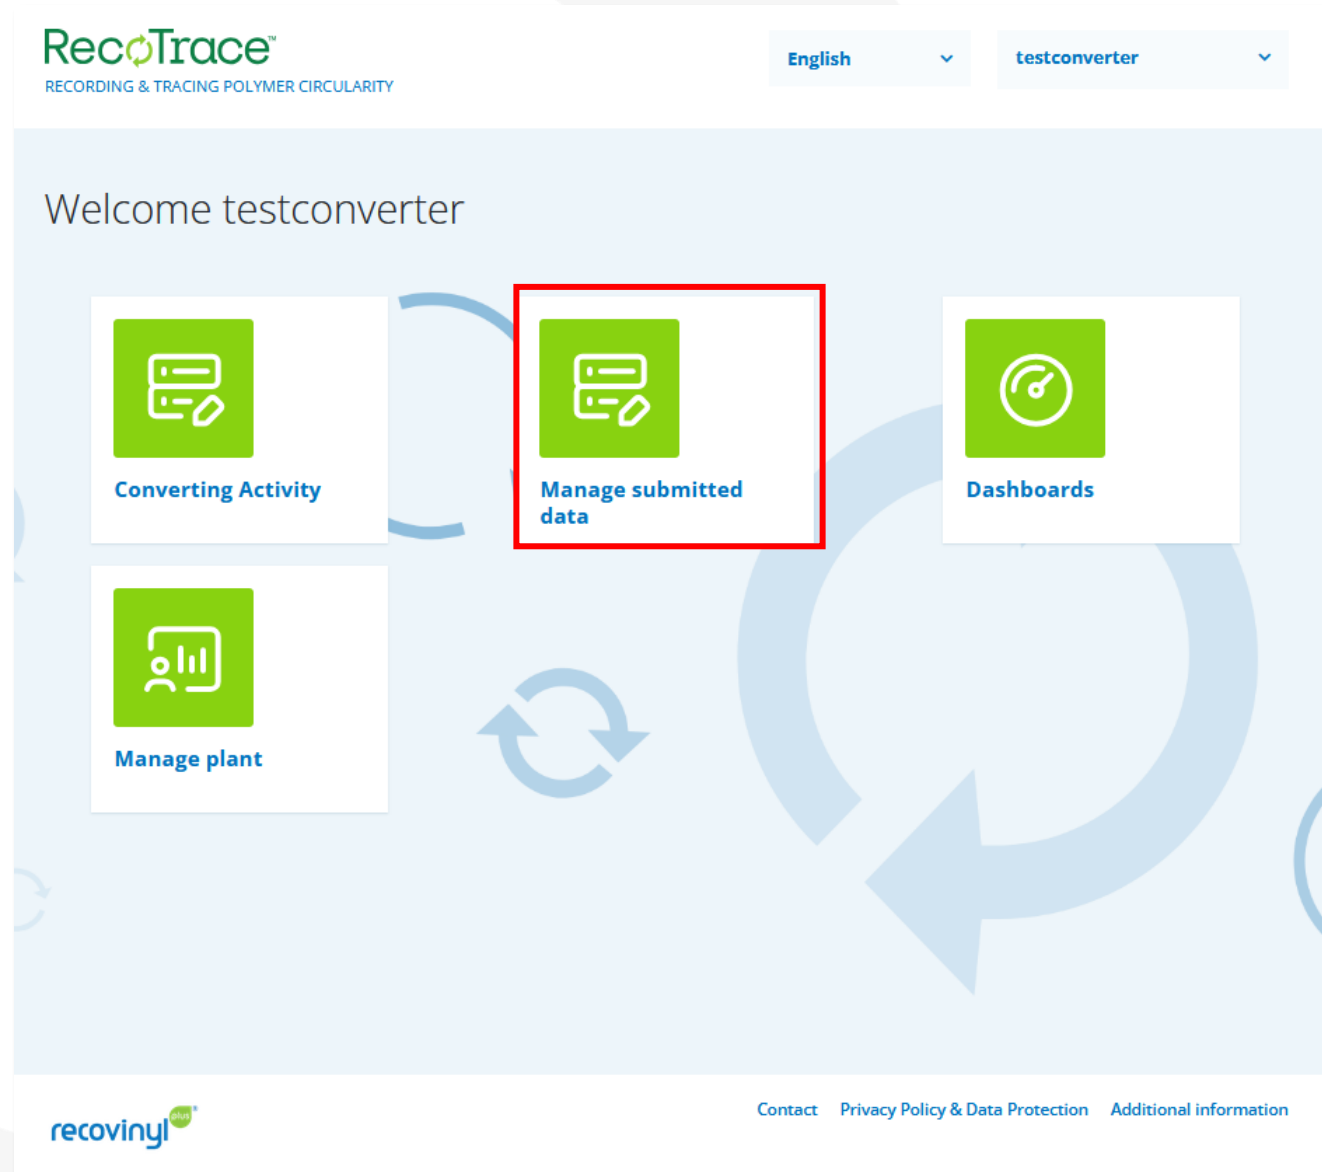

Par exemple, si vous déclarez en juillet pour les 6 premiers mois de l'année, juillet doit être sélectionné et le poids total pour les 6 mois déclarés.

Indiquez ici l'application finale (produit)

Indiquez quelle part du total a été exportée vers des pays hors UE et autres que le Royaume-Uni, la Norvège et la Suisse (exigence CPA).

Indiquez la part totale exportée vers la Norvège et la Suisse (exigence VinylPlus).

Gestion des données soumises

Ce ruban changera selon l'usine choisie, pour le tri : la production sera visible comme « trier la production » et « recycler la production »

Filtrez les données affichées ci-dessous par date, polymère, usine et statut. Le statut fait référence à l'état d'audit de vos données et sera « soumis » jusqu'au moment où vos données seront auditées.

En cliquant sur « Modifier », vous pourrez modifier ou retirer des soumissions. Assurez-vous de sauvegarder vos modifications.

Guia do Usuário do RecoTrace

Para recicladores e conversores

Bom saber

- O RecoTrace funciona em todos os navegadores. No entanto, recomendamos navegadores baseados em Chrome (Chrome, Edge,...).
- O RecoTrace cumpre os requisitos da Circular Plastic Alliance (CPA) para coleta de dados.
- Para as definições de reciclagem, conversão e resíduos, consulte a Metodologia CPA https://ec.europa.eu/growth/industry/policy/circular-plastics-alliance_en
- Você encontrará a palavra 'Europa' em algumas das perguntas. Segundo as definições de CPA, Europa é UE + Reino Unido.
- Construir um sistema seguro, robusto, bem apresentado e amigável ao usuário é um processo contínuo. Portanto, o layout e o conteúdo dos formulários apresentados neste guia podem ser sujeitos a mudanças.

Após inserir seu número de IVA, clique para procurar o nome da sua empresa no banco de dados VIES (exceto para países fora da UE)

Escolha o papel apropriado. Se você é um conversor com uma planta ou atividade de reciclagem, selecione 'Conversor com reciclagem'.

Conta é por usuário – pessoa física. Aqui, insira seu nome e e-mail.

Você precisa concordar com os termos e condições. Opcionalmente, você pode concordar com o acesso ao Vinylplus, e consentir, se podermos usar seu e-mail para newsletters.

! Depois que seu cadastro é enviado, pode levar alguns dias para ser aprovado – verificamos a identidade de cada candidato antes de aprovar uma conta.

Assim que sua conta for aprovada, você receberá um e-mail.

Você poderá então fazer login para finalizar seu registro.

Você perceberá que alguns campos precisam ser preenchidos novamente (por exemplo, informações da empresa).

As informações que você preencheu para solicitar uma conta servem apenas para fins de verificação e não são armazenadas.

Gerenciando seu perfil – origem do resíduo, uso em, ordenação da saída

Existem 3 listas:

- Gerencie a 'origem do resíduo': para classificadores e recicladores
 - Pode ser antes ou pós-consumo
- Gerencie 'usado em': para conversores
- Gerencie a 'saída de soring': para os classificadores
 - Pode ser antes ou pós-consumo

É importante definir esses pontos antes de adicionar submissões ao RecoTrace.

- A RecoTrace minden böngészőn működik. Ugyanakkor kromalapú böngészőket (Chrome, Edge,...) ajánlunk.
- A RecoTrace megfelel a Circular Plastic Alliance (CPA) adatgyűjtési követelményeinek.
- Az újrahasznosítás, átalakítás és hulladék definícióiért kérjük, tekintse meg a CPA Módszertant:
https://ec.europa.eu/growth/industry/policy/circular-plastics-alliance_en
- Néhány kérdésben találkozni fogsz a 'Európa' szóval.
A CPA definíciója szerint Európa az EU + Egyesült Királyság.
- Egy biztonságos, robusztus, jól teljesítő és felhasználóbarát rendszer felépítése folyamatos folyamat.
Ezért az útmutatóban bemutatott űrlapok elrendezése és tartalma változhat.

Miután beírta az ÁFA-számodat, kattints a cég nevére a VIES adatbázisban (kivéve nem EU-s országokat)

Válaszd ki a megfelelő szerepet. Ha átalakító vagy egy újrahasznosító üzem vagy tevékenység tulajdonosa, válassza a 'Átalakító újrahasznosítással' opciót.

A fiók felhasználónként – személyenként. Itt adja meg a nevét és e-mail címét.

El kell egyezned a feltételekkel. Opcionálisan beleegyezhetsz a Vinylplus hozzáféréssel és beleegyezéssel, ha használhatjuk az e-mailedet hírlevelekhez.

! A regisztráció benyújtása után pár napba telhet, mire jóváhagyják – minden jelentkező személyazonosságát ellenőrizzük, mielőtt jóváhagynánk egy fiókot.

Miután a fiókodat jóváhagyták, e-mailt kapsz.

Ezután bejelentkezhetsz, hogy befejezze a regisztrációt.

Észreveszed, hogy bizonyos mezőket újra ki kell tölteni (pl. cég adatai).

Az adatai, amelyeket a fiókkéréshez töltöttél, csak ellenőrzési célt szolgálnak, és nem tárolódnak.

Ez segít biztosítani az adataid biztonságát.

The screenshot displays the RecoTrace web application interface. At the top left is the RecoTrace logo with the tagline "RECORDING & TRACING POLYMER CIRCULARITY". To its right is a language dropdown menu set to "English". Further right is a user profile dropdown menu for "testconverter", which is open and shows several options: "Manage your profile" (highlighted with a red box and a hand cursor), "Notifications", "Manage plants", "Manage 'waste origin'", "Manage 'used in'", and "Logout" (highlighted in orange). The main content area features a "Welcome testconverter" message and four large green icons with labels: "Converting Activity", "Manage submitted data", "Manage plant", and "Dashboards". The background of the main area has a large, faint circular arrow graphic. At the bottom left is the "recovinyt" logo, and at the bottom right are links for "Contact", "Privacy Policy & Data Protection", and "Additional information".

Itt új felhasználókat adhatsz hozzá, és őkmegfelelően lesznek a cégedben.

Lehetséges, hogy a cégen belüli különböző felhasználók hozzáférése korlátozható bizonyos üzemekre. Ehhez válaszd a 'Csatolás/lekapcsolódás üzem(ek)' opciót. Alapértelmezés szerint bármely új felhasználó hozzáfér az összes üzemhez.

A profil kezelése – hulladék eredete, felhasználása, válogatása, a kimenet

Három lista létezik:

- A "hulladék eredete" kezelése: válogatók és újrahasznosítók számára
 - Lehet előzetes vagy utófogyasztó
- Kezeld a 'használt in' használatát: konverterek számára
- Manage 'soring output': for sorters
 - Lehet előzetes vagy utófogyasztó

Fontos, hogy ezeket pontosan meghatározzuk, mielőtt beküldéseket adnánk hozzá a RecoTrace-hez.

Az itt megnevezett hulladék vagy végtermék feltölti a legördülő menüdet beküldéskor

Ha már nem újrahasznosítasz/válogatsz/termelsz, archiválhatod a kiválasztott hulladékot/terméket. Utána nem lesz látható a legördülő menüben.

Itt hozzáadhatsz hulladékot/termékeket, és egy legördülő listára kerülsz, ahol kiválaszthatod, mit adj hozzá.
A legördülő menüben bejelölheted a hulladék/termék négyzetét, amit a műveletedben kezelsz.
A hulladék esetében el kell dönteni, hogy a folyamat elő-fogyasztó vagy utófogyasztó-e. Küldd be a kiválasztott érték szerint, és visszakerülsz az áttekintésbe, ahol további tartalmakat adhatsz hozzá.
